***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 77-102, drawn to a metal foil tube.

Group II, claim(s) 103-123 and 142, drawn to a method of production of a metal foil tube.

Group III, claim(s) 124-141 and 143, drawn to a production apparatus of a metal foil tube.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the technical feature of the metal foil comprised of Fe, Cr, Ni, Co, Mo, Be, Cu, Ti, Nb, Zr, Ta in Group I is not present in Groups II and III; the technical feature of shaping a metal foil sheet so that its facing sides overlap in Group II is not found in Groups I and III, and the technical feature of a shaping unit in Group III is not present in Groups I and II.

3. A telephone call was made to Mr. John Kelly, Jr. on August to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
